

Your Partner for Success

Promoting healthy relationships and improving children's behavioral and emotional functioning to increase school and life success.

Therapy & Case Management

Individual, family, group therapy or case management services are available with the goal of reducing symptoms and improving functioning at home, school and the community.

Psychiatry

Comprehensive psychiatric evaluations are available. For better outcomes, families who receive medication services are also encouraged to participate in another therapeutic service.

Life Skills/Mental Health CPST

Addresses presenting mental health symptoms, behaviors and thoughts and assists the client in eliminating barriers for seeking/maintaining education, employment and other self-sufficiency skills necessary for the transition to independence.

Foster Parent Licensing

Services are provided to adults interested in becoming Ohio Department of Job and Family Services Certified for placement of children ages birth to young adulthood in Southwest Ohio.
