

# SAIGE

## Webinar:

### *Social Justice & the Human Trafficking of Queer & Trans People*

Two of the prominent social justice issues of our time are the oppression of sex/sexual/affectional/gender minorities and human trafficking. Yet overlooked is how these two issues converge. Queer and trans youth are among the populations most victimized by human sex trafficking. This presentation will address why these individuals are at particular risk; methods and strategies for prevention; and opportunities for social justice which lower the risk of queer and trans youth being trafficked.

2 NBCC CE's Available.
